

COVID-19 First Aid/CPR Information

Due to the Covid-19 restrictions, we are not currently offering First Aid/CPR courses. We recognize that many of you may have certifications that are expiring. In order to assist you all with expiring certifications, the American Red Cross is granting 120-day extension.

Why a 120-day extension?

The American Red Cross wants to support all customers during these uncertain times, who may not be able to participate in training at this time. The 120-day extension certificate will be recognized by Girl Scouts-North Carolina Coastal Pines but it is up to an employer to accept the extension certification.

How do you get an extension?

If you attended a GSNCCP Adult and Pediatric First Aid/CPR/AED, Adult and Child First Aid/CPR/AED or Wilderness Remote First Aid course between March 1, 2018 and June 30, 2018, we will be submitting your information to the American Red Cross for the extension. Due to the large number of volunteers who have completed these courses, it will take some time for you to receive your extension from the American Red Cross. The extension certificate will come directly from the American Red Cross via email in the following weeks. Please note: this extension is for basic level courses and not available for instructor or instructor trainer courses.

Will the extension be extended to dates past June 30?

As of right now, we have not heard that the extension will go beyond the June 30th deadline. As soon as we know more information we will pass that information to you all.

Future First Aid/CPR courses

All First Aid/CPR trainings are cancelled through August 14. Girl Scouts – North Carolina Coastal Pines is closely monitoring the COVID-19 updates from the Centers for Disease Control, North Carolina Health Department, and the local public health departments and will updating you all with next steps and when we will be offering in-person trainings again.
