Dear Girl Scouts and Caregivers,

Get ready to dream big, explore boldly, and grow stronger than ever, because the 2025–2026 Girl Scout year is here, and it’s packed with adventure, inspiration, and endless opportunities to shine.

Our theme, “Where We Grow,” is more than a phrase, it’s a mindset. Every meeting, every adventure, and every challenge is a chance to grow, into a stronger leader, a kinder friend, and a more confident version of yourself. Whether you’re planting seeds of change in your community, learning new skills through hands-on STEM fun, or gaining courage under the stars at camp, Girl Scouts is where your growth takes root.

At Girl Scouts, we celebrate the journey as much as the destination. Every badge earned, every camp song sung, and every challenge faced is a step forward in discovering who you are and what you’re capable of. Here, you’re encouraged to explore freely, speak up boldly, and grow at your own pace, surrounded by a sisterhood that celebrates who you are and who you’re becoming.

This Program Guide is your passport to a year filled with excitement, growth, and purpose. As you explore what’s inside, imagine the friendships waiting to blossom, the skills you’ll gain, and the memories you’ll make. From outdoor adventures and STEM discoveries to civic action and cookie success, you’re writing your own story, and we’re honored to be a part of it.

Let’s make this year unforgettable. **Grow boldly. Lead bravely. Shine always.**

With excitement and Girl Scout spirit,
Girl Scouts – North Carolina Coastal Pines

PRODUCT PROGRAM

GS-NCCP holds two product program opportunities for troops and individually registered Girl Scouts (Juliettes) each year. These programs help girls build their business smarts and gain five key business skills: goal-setting, decision-making, money management, people skills and business ethics – life skills that help them learn about and think like entrepreneurs, while earning funds to further their Girl Scout experiences. This year's theme is Brave. Fierce. Fun!

Fall Product Program

The Fall Product Program begins October 1 and is a friends and family sale that includes magazines (new subscriptions and renewal), specialty nuts and chocolates and other specialty products. The sale can be conducted both face-to-face and through our Fall Product Program website. Girl Scouts also use nut donations for Treats for Troops – our fall product service project that supports our USO. The Fall Product Program's mascot is the incredible Grizzly Bear!

Girl Scout Cookie Program

The Girl Scout Cookie Program begins in January and is the most iconic activity Girl Scouts engage in. The sale can be conducted face to face, online with Digital Cookie, through booth sales or a combination of all. Girl Scouts can truly become Cookie Bosses as they plan, sell, manage their inventory, support their customers, and reach their goals!

This year's mascot is the Black Footed Ferret, one of the most endangered animals in North America. All Girl Scout troops earn proceeds for participating in the Cookie Program which can be used to fund troop adventures such as travel, community service projects, council sponsored activities, and much more. Individual Girl Scouts earn rewards for their sales level as well. Girl Scouts love supporting our council-wide service project, Operation Cookie Drop, with donations that help to share Girl Scout Cookies as a sweet taste of home for our military members.

LEADERSHIP OPPORTUNITIES

Girl Scout Juniors, Cadettes, Seniors, and Ambassadors are amazing! You can lead your way with Girl Scouts' new and refreshed Leadership Awards. You can help younger Girl Scouts earn badges, serve as a role model as you lead an event or activity, be a mentor in a camp setting, lead community service efforts, participate in exclusive mentoring opportunities, or reach for Girl Scouts' Highest Awards.

Events with Morehead Planetarium

\$65 per Girl Scout | \$35 per adult | Individual/Troop

Join Morehead Planetarium for a one-of-a-kind adventure. Girl Scouts will explore science in an exciting, engaging environment. Learn about the science of light and how it relates to astronomy or learn about the stars in our Solar System.
