

Girl Scouts North Carolina Coastal Pines invites girls, families, and volunteers to stay involved while at home. We know that today's girl is ready to pivot on a moment's notice and is willing to embrace new ways to explore Girl Scouting. That's why we're promoting these options for engaging with us while you're at home today ... or any day!

STEM encourages Girl Scouts to look at the world around them with inquisitive eyes, experiment, push boundaries and learn as they go! Each Friday check out our activities, stories, and videos aimed at helping girls become better problem-solvers, critical thinkers, and inspirational leaders. Join the conversation online. **#OurGSNCCPCommunity**

STEM Globetrotting

Explore STEM around the world by checking out research sites around (and beyond) the globe! A few helpful links to help you get started are included below.

Create a travel brochure or postcard for a site you'd like to visit—what kinds of research is happening there? What is life like for the scientists who work there?

[The Svalbard Global Seed Vault | Svalbard, Norway](#)

The Svalbard Global Seed Vault is a treasure trove of biodiversity—the scientists here protect over 865,000 seed samples from almost every country on Earth.

[NASA Lyndon B. Johnson Space Center | Houston, TX](#)

[The Johnson Space Center](#) is where NASA scientists conduct research and training on human spaceflight.

[Amundsen-Scott South Pole Station | Antarctica](#)

[Take a tour](#) of the southern-most research station in the world! The South Pole Station was founded in 1956 and is fully staffed by scientists year-round.

[International Space Station](#)

Orbiting Earth, the [International Space Station](#) is a home to scientists carrying out specialized research from around the world.

[CERN: Large Hadron Collider | France & Switzerland](#)

Located underground on the border between France and Switzerland, CERN scientists conduct research on physics and nuclear power using the [Large Hadron Collider](#).

[Aquarius Reef Base | Key Largo, Florida](#)

The only underwater research lab in the world! Scientists at the Aquarius Reef Base live on the sea floor while they conduct underwater research.

Need a copy of a Journey, badge requirements or want to order patches? While our shops are closed, please feel free to [shop online](#) or [email](#) us for merchandise needs. We will provide free shipping within in our council footprint on orders emailed to us (please provide phone number in
