

Girl Scouts North Carolina Coastal Pines invites girls, families, and volunteers to stay involved while at home. We know that today's girl is ready to pivot on a moment's notice and is willing to embrace new ways to explore Girl Scouting. That's why we're promoting these options for engaging with us while you're at home today ... or any day!

STEM encourages Girl Scouts to look at the world around them with inquisitive eyes, experiment, push boundaries and learn as they go! Each Friday check out our activities, stories, and videos aimed at helping girls become better problem-solvers, critical thinkers, and inspirational leaders. Join the conversation online. **#OurGSNCCPCCommunity**

There is no better time than now to revisit the Girl Scout STEM Pledge that launched in 2017. If you are not familiar with the STEM Pledge watch this great video from GSUSA CEO Sylvia Acevedo.

Did you know that women hold less than 28 percent of STEM jobs in the United States but make up more than 47 percent of the U.S. workforce? How can we change that? We can help you explore the possibilities. Maybe you're new to STEM or maybe you already have a love of all things STEM related. We want to help you discover fun ways to learn and decide what it is you enjoy in STEM.

During Virtual Technoquest 2020. Girls had the opportunity to listen to and ask questions to an amazing panel of women in STEM careers. They learned about each panelist work field. What they enjoy about their jobs. How the current world situation has effect their jobs and how they perform them. Plus much more.
