## **MEDICATION PERMISSION AND INSTRUCTIONS**

Written parental consent is required before a minor (under 18) Girl Scout may be given any medication or treatment of any kind. During trips or at events, girls may need medication for ailments such as headaches, stomachaches, diarrhea, or a low-grade fever. They might need sunscreen, insect repellent or Chapstick. You MUST send any over-the-counter medication your daughter may need in the original bottle/package (INCLUDING ASPIRIN, TYLENOL, ETC.). Prescription drugs must be in the original bottle/package with the physician's instructions for administering them. Put all drugs in their original bottle/package in a Ziploc bag and label it with your daughter's name. Medication will be available from the adult in charge of first aid and can be given as specified by instructions on the label for prescription drugs or by written instructions from parents/guardians for over-the-counter drugs. Complete the middle part of this form with instructions for over the counter drugs.

Girls may keep asthma sprays, epi-pens, insect repellent, or sunscreen with them if they know how to use them with prior written permission from parents or from the adult in charge of first aid. All other medication must be turned into the adult in charge of first aid, unless we have a note signed by a physician stating that a girl must keep a certain medication with her.

It is the responsibility of the girl/parent to make sure all medication is picked up at the end of the trip/activity/camp.
